

Interview with...

Pierre Pfefferle Inside Sales Specialist

in the team since 2013

How did you come to us?

I discovered a job advertisement from TTL Network. The company was looking for an internal sales employee. As a tech-savvy person, the product portfolio and the diversity of the customised solutions, coupled with the vision to deliver the best possible quality, convinced me.

What are your tasks with us?

As a member of the internal sales team, I support our field sales team in looking after customers in the industrial and data centre sectors.

What do you like about TTL Network?

The trusting cooperation in a family-run medium-sized company. In addition, I am convinced by the opportunity to advance my own professional and personal development with the help of a jointly developed career plan.

What has been your highlight so far during your time at TTL Network?

Due to the variety of tasks I was entrusted with during my time at TTL Network, there were many highlights. One positive aspect is that I got to know many different job details of the company in addition to sales right from the start. This helped me to classify sales decisions in the overall company context and to continuously develop myself.

Please add: The #TTLfamily for me is ...

... is to have an exciting and varied job where every person is valued.

Would you also like to be part of our team?
